SETUP GUIDE

MEMBER

Get started

For club members and guests

8 STEPS

Your club runs pools on its tournaments, and you're in. Back a team to Win, Place, or Show with club credits, watch the live board, and get your results by text. No app store, no password.

Step by step

1

Join your club

Your invite gets you in. It takes just a few taps.

- Open the link in your club's text, scan the QR code at the join table, or enter the invite code.
- The page says you're invited by the club.
- On **Your details**, add your name and a mobile number or email.
- Pick text, email, or both for your tickets and results.

WHERE IT LIVES

The invite page. This step is done once you land on **Home**.

2

Confirm your age and the house rules

You do one quick check on the same form, and then you're nearly there.

- On that same details form, confirm you meet the club's minimum age and accept the house rules. It's all here, not in a separate wizard later.
- Not signed in yet? The next screen is **Confirm it's you**, with a six-digit code by text, or by email if you didn't give a mobile number.
- If your club approves new members first, you won't reach **Home** yet. **Your clubs** shows that your membership is awaiting approval, and you'll get a text or email when you're in.
- If the house rules change after you join, **Home** asks you to review them under **Settings** before your next entry.

WHERE IT LIVES

The invite form, then the one-time code. If your club uses approval, you'll see a waiting note on **Your clubs**.

3

Find your event

Everything that's open is one tap away.

- **Home** lists your club's tournaments and open pools.
- **Pools** lists every open pool.
- Nothing open yet? The club texts you when pools open.

WHERE IT LIVES

Home and the **Pools** tab. The empty line on **Home** says pools open ahead of each round.

4

Get credits

Credits are how you play, and there are two easy ways to get them.

- Settle up at the credit desk, or open **Wallet** and use the **Request** section (it uses your club's credit name).
- Staff post the credits, and you get a text when they land.
- The note under the **Wallet** heading is your club's line on what a credit is worth.
- A request reads **Waiting for the organizer** until it's **Posted**.

WHERE IT LIVES

Wallet. The **Request** section is on that page.

5

Back a team

This is the fun part: pick your team and build your ticket.

- On a pool, tap a team and choose **Win**, **Place**, or **Show** (or **Across the board**).
- Add it to **Your ticket**, review the ticket, and place the entries.
- Your tickets arrive by text and email.
- If your balance doesn't cover them, they wait at the credit desk with a ref until staff confirm them.

WHERE IT LIVES

The pool page, then the **Ticket** tab.

6

Join Team Draft, if your club runs it

On draft night, you pick players. Once the teams are set, you back a team.

- On the tournament page, **Team Draft** appears when your club has turned it on for that event.
- Open it and pick a player when you're on the clock. Picked players drop off **Available** right away.
- When the backing board is open, that page links to **Team Pool**. Teams come up one at a time, and you back the team that's up by raising the credit amount before the timer ends.
- The top backer is the highest amount, and the board shows who backs each team. Buy-back, if the event uses it, is recorded by the desk.

WHERE IT LIVES

The tournament page links to **Team Draft**. **Team Pool** is the next page, and you can only reach it while that board is open.

7

Watch the live board

Sit back and watch the pool move.

- Every pool page has a live board that refreshes on its own. It works like the clubhouse TV.
- Estimates move as the pool fills.
- They lock when the pool closes.

WHERE IT LIVES

The pool page. The label is **Live board**.

8

See your results

The scores are in, so here's where to look.

- Once the committee confirms the results, you get a text and an email.
- Your credits land in your **Wallet**.
- **Tickets** lists every entry.
- Settle up with the club at the **Pool desk**.

WHERE IT LIVES

Tickets, plus the text or email the club sends.

You're all set

Back a team, grab a seat near the TV, and enjoy the round.

Tips and FAQ

What's a credit worth?

Your club decides and announces it. You'll find the club's note at the top of **Wallet**.

Do I settle anything in the app?

No. The club issues credits, and settling up happens at the club.

Why did my estimate change?

It comes from the whole pool, so it moves as entries come in. Your result uses the pool as it stands when it closes.

Can I back my own team?

If your club allows it. The house rules say what's allowed.

A team withdrew. What happens to my ticket?

If a team is scratched before the pool closes, your entry on them comes back in full.

What's takeout?

It's a share of each pool that the club keeps for prizes or the club. You'll see it before you enter.

Too many texts?

Reply STOP anytime. Ticket confirmations and results still come by email, because they're your ticket record. Reply START to turn texts back on.

Want to sit an event out?

Ask the committee for a self-exclusion. It stops you entering pools and turns off reminder texts.
